maintain a branch” of the National Home for Disabled Volunteer Soldiers west of the Rocky Mountains;¹⁵

WHEREAS, the 50th Congress first bestowed the name “Pacific Branch” in reference to the property while appropriating \$90,000 to maintain and enlarge the facility in 1888;¹⁶

WHEREAS, on November 19, 2014, the “Pacific Branch” was listed on the U.S. Department of the Interior National Park Service National Register of Historic Places (NRIS Reference Number: 14000926);^{17 18}

WHEREAS, on June 2, 2022, the Veterans and Community Oversight and Engagement Board (VCOEB) voted to adopt a recommendation to the U.S. Secretary of Veterans Affairs requesting that Metro “refer to the planned Metro Station on campus as the ‘Pacific Branch / VA Hospital’ station.”¹⁹

WHEREAS, the Los Angeles County Veterans Advisory Commission joins the VCOEB in requesting that Metro rename the station “Pacific Branch / VA Hospital” in an attempt to raise awareness of the VA campus’ unique history as the Pacific Branch of the National Home for Disabled Volunteer Soldiers.

NOW THEREFORE LET IT BE RECOMMENDED:

that the Los Angeles County Board of Supervisors, acting in their official capacity as permanent members of the Los Angeles County Metropolitan Transportation Authority Board of Directors, take a leadership role in advocating for the following reforms:

1. Metro will hire or contract a third party with cultural competency in both the military veteran community and arts development to assist with public outreach for the duration of the “Westwood / VA Hospital” station construction.
2. Metro Art will adopt a new policy that incorporates public scoping meetings prior to engaging in artist selection. The scoping meetings should be conducted on a station-by-station basis giving various communities an opportunity to provide ideas that best represent their unique cultural identity. Public comments can be incorporated into future artist solicitations with the goal of producing conceptual art submissions that resonate with communities served by Metro.
3. Metro Art will adopt a new policy that all opportunities to participate in Metro commissioned art projects, including artist-directed community engagement events, will be distributed to the public stakeholder list for each line at least 14 days in advance.
4. Any Metro Art projects that have been completed, or in the process of being installed, should be subject to a review based on proposed Recommendations 2 & 3 above.
